December 7, 2007

Compliance Actions

On November 29, 2007, the WSDA Organic Food Program revoked the registration of Organic Biolink 14-0-0 by Westbridge Agricultural Products. The WSDA Organic Food Program determined that Westbridge Agricultural Products failed to provide records to account for the nitrogen inputs, failed to disclose changes to the product formulation and failed to disclose a complete list of ingredients. The registration of Organic Biolink 14-0-0 has been revoked and the product is prohibited for use in organic crop production.

Producers that use this product after receiving this notification will be in violation of organic standards. Use of Organic Biolink 14-0-0 after December 15, 2007 will be considered the application of a prohibited substance and will result in the loss of organic status for 3 years.

As always, if you have any questions about approved materials and your certification, please do not hesitate to contact our office at (360) 902-1805 or contact your assigned reviewer directly.

Sincerely,

Katherine Withey
Organic Material Review Coordinator
